Gun-Threat Charge Laid By RCMP

A backwoods Alberta farmer will stand trial on charge of robbing an RCMP constable at gun-point and of obstructing a peace officer.

Detained for Peace Officer's Court trial yesterday in police court was Edward Corbett, of Buck Creek, Alta.

Already committed for trial on charge of false pretences, he still faces preliminary hearings on charges of possessing a liquor still and an unregistered revolver.

At Gun Point

Testifying at the hearing yesterday afternoon was RCMP constable W. W. Peterson, who told court Corbett had robbed him at gun-point, August 28.

The constable, with three others, had visited the farmer's cabin near Buck Creek, Alta. in August to search the premises.

Constable Peterson related that after the search he had followed Corbett back into the cabin.

"Then he turned around quickly and he had a shotgun in his hands," said Peterson.

Threat Alleged

"Accused told me to get out of the cabin or he'd lay me low," Peterson testified.

After being forced outside the cabin, Peterson said, Corbett told him to take off his jacket and throw it to the ground.

"After doing that, he snatched it up and took it into the cabin," he said.

Later, when he was returned to the cabin, Peterson said, a wallet containing \$40 and personal papers were missing.

A rifle and shotgun, said to have been found in Corbett's cabin on search after he was arrested, were entered as exhibits.

Corbett was charged with a six-foot one-inch man who weighs about 200 pounds, is described by his associate as a "bear for work."

During the discovery of the rifle and shotgun, he was seen to have more weight than the common variety.

Gloucester, a six-foot one-inch man who weighs about 200 pounds, is described by his associate as a "bear for work."

Japanese, Yank Win Nobel Prizes

\$30,174 Prizes Awarded For Physics, Chemistry

STOCKHOLM, Sweden, Nov. 3.—(UPI)—The United States and Japan, enemies in the second World War, tonight won 1949 Nobel prizes in science. An American, born in Canada, received the award in Chemistry, and a Japanese in Physics.

The American winner is Dr. William Francis Glaser, 34, professor of chemistry at the University of California, Berkeley, Calif.

The Japanese is Dr. Hidetsugu Yukawa, professor of physics at Kyoto University and now temporarily on the staff of Columbia University in New York City.

Each prize is worth \$30,174. The winners will be awarded the money formally at the Nobel festival in Stockholm, Dec. 10, the anniversary of the death of Alfred Nobel, who set up the Nobel prizes.

The Swedish academy is announcing the two winners today said no prize would be given this year in literature because no candidate received a majority of votes.

Yukawa was honored for his long research into elementary particles of nature, particularly for his prediction that a particle called the meson existed in nature and might be a contributing factor in the binding forces of the atom.

Glaser, born of American parents at Niagara Falls, Ont., has gained scientific fame for his research in the properties of matter at very low temperatures.

He has been cited many times and shared honors with Dr. H. L. Johnston in the discovery of superconductivity in certain metals.

A rifle and shotgun, said to have been found in Corbett's cabin on search after he was arrested, were entered as exhibits.

Corbett was charged with a six-foot one-inch man who weighs about 200 pounds, is described by his associate as a "bear for work."

Parsons Elected In Record Voting

(Continued From Page 1)

Over 3,000 votes, led by Joe Kalla with 12,128. He was followed by George Linsley with 11,761, and Mrs. Julia Kinsal with 5,579.

SOUTH SIDE ANOMALY
Five aldermen were elected for two-year terms, and although Mr. Clarke collected more votes than did Mr. Hawkrick, Mr. Clarke will sit for only one year.

Returning Officer George Docherty said that this results from Mr. Hawkrick running as south side candidate, and therefore being elected for a two-year term. City charter calls for election of two south side aldermen this year and Alx. Hark Janner is the other.

Balloting for aldermen finished in 208 rejected votes.

Continuing members of City Council for one year are Aldermen Albertus Bisset, Sid S. Bennett, and F. L. Hanna and Fred J. Mitchell.

Citizens' Committee nominees were given acclamations to four high school board seats. They are Mrs. Mary Butterworth and John H. Thorogood, both south side representatives, Dr. George H. Brown and John W. K. Shortreed.

Public School Board for one year are H. S. Fowler, J. C. Macdonald and H. S. Fowler.

Separate school board members are Mrs. Mary Butterworth and John H. Thorogood, both south side representatives, Dr. George H. Brown and John W. K. Shortreed.

Mr. Docherty will make the official declaration of election results at noon Friday, and the new council will hold its initial meeting at 2 p.m. Saturday in council chambers.

Mayor Harry Atlay's last official day as chief magistrate will be Friday, after four years at the post.

11 Top U.S. Reds Are Allowed Bail
NEW YORK, Nov. 3.—(UPI)—The United States Court of Appeals ruled today that the 11 top American Communist convicted of conspiracy may be released on bail pending appeal of their case.

The court ruled that seven could be released in \$20,000 bail each and four in \$30,000 bail apiece.

The government originally asked that their total bail be set at \$1,000,000.

CHURCHILL FAILS TO WIN NOBEL PRIZE

STOCKHOLM, Sweden, Nov. 3.—(UPI)—The Swedish Academy announced today that no Nobel prize for literature will be awarded this year because no single writer had polled the necessary majority.

Winston Churchill of Great Britain and Benedetto Croce of Italy had been mentioned as chief contenders for the honor.

The prize was given last year to T. S. Eliot, Anglo-American poet now living in London.

High Prices Are Featured At Stock Sale

Northern Alberta Cattle and Horse Raisers' Association, sponsored by the Associated Commercial Travelers, will benefit by an estimated \$100 as the result of generous action by George Jackson, Calgary livestock breeder.

He donated one of his prize-winning market lambs to the fund and the subsequent auction Canada Packers Ltd. bought the animal for the record price of \$1 a pound on the hoof.

This price is 49 cents more than was paid for the champion of the class exhibited by James E. Currier of Innisfail, also purchased by Canada Packers.

Bidding on the donated lamb was spirited, rising rapidly from initial bid of 50 cents to 90 cents. At this mark the bidding slowed down with final nod on the animal going to the packhouse bid.

Reserve champion lamb was purchased by Burns and Co. Ltd. for 41 cents a pound.

Prices paid for all lambs exhibited were well above average, netting exhibitors an average of 10 cents over the current market price.

TOP PRICES
Canada Packers Ltd. also paid top price of the show in the commercial ewe auction sale buying S. W. Sheppard's group of five ewes at 39 cents a pound.

Grand champion pig of the show exhibited by Edwin C. Gaudin, a Newfoundland, brought 38 cents a pound and was purchased by Burns and Co. Ltd. Reserve champion pig, sold at 35 cents.

Top price of \$400 was paid by F. C. Heffel for the champion Short-horn heifer of the show exhibited by W. Henry Pickardville.

Twelve females entered in this class sold at an average price of \$211.66.

**City Council
Hold Initial
Meet Saturday**

Edmonton's new city council will waste no time getting down to civic business. First meeting of the new administrative body is set for Saturday at 2 p.m.

The meeting will see gathered around the council table five veterans, five young aldermen and veteran Sid Parsons in the mayor's chair.

Continuing members of council are Aid. Mitchell, Aid. Bowcott, Aid. Bisset and Aid. Hanna. Hanna, 55, has held office for one year.

Re-elected aldermen are experienced politicians, Aid. Tanner and Aid. Ford. Newcomers to council are Dr. Rupert Clark, 58, Kenneth Lawson, 46, R. I. Clarke, Jr., 34, and William Hawley, 35.

**George Martin
Is Bank Head**

Canadian Bank of Commerce has appointed George Martin, 1121-11 street, manager of its new branch bank in the Highlands.

The bank, at 7119-1131 avenue, will open shortly.

Mr. Martin has been on the staff of the main branch here since 1931. He was formerly manager at Monfort, Alta.

A native of Kent, England, the new branch manager is a veteran of the first world war. He is a member of the Kingsway Legion branch, the Canadian Corps Association and a past master in the Masonic order.

Clearing House
Clearing house figures for the week ending Nov. 2 totalled \$22,423.30. For the corresponding week last year the figures were \$22,144,645.

**50 DOLLARS
REWARD!**

RISKING nine lives like mad is newly-born kitten at Hayward's Lumber Co. on 75 street. Pusy purrs contentedly as Hayward bookkeeper Lorraine Granda rescues him from fate worse than death—interment between office walls. Kitty tumbled between walls second time yesterday after surviving similar fall Monday.

Twice office workers have had to tear out wall to rescue kitty.

**2420 Hotel Employees
Seek New Wage Scale**

Provincial Government conciliation is sought by approximately 2420 Edmonton hotel service and beverage room employees in a dispute over new wage and working agreements.

Announcement of an application for conciliation was made today by business agent Joseph Cherrington on behalf of local 260 of International Hotel Service Workers and Beverage Dispensers International Local 979.

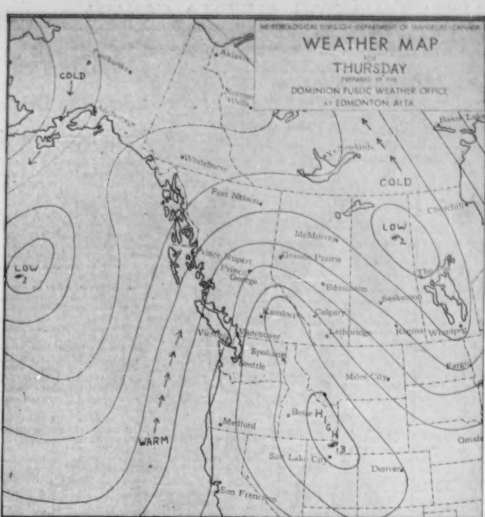

Twenty Edmonton hotels and two service clubs are involved in the dispute.

Organized Cherrington said conciliation proceedings are sought in conformity with the Alberta Labor Act, following a breakdown in negotiations with representatives of hotel employers in Edmonton.

He said a revision of the working week is sought by union employees with a 46-hour week throughout the industry being demanded.

SEEK WAGE HIKE
Service workers now work a 46-hour week with beverage dispensers working a 46-hour week, the organizer said.

Union workers are also seeking

Forecaster Sees Warmth Staying Here for Awhile

By George Robertson
Dominion Meteorologist

An unusual combination of stationary pressure systems has brought record breaking temperatures to Edmonton and western Canada.

Just two weeks ago an arrangement of pressure systems brought strong north and east winds over the prairies and a blinding snow storm to southern Alberta.

In sharp contrast, the pressure systems are now heavily reversed and warm air is being carried over the prairies by south and west winds.

THREE SYSTEMS
Three pressure systems are responsible for controlling this air flow.

No. 1, the low out in the Pacific about 1,000 miles west of Vancouver, is carrying cold air from Alaska far to the south across the water.

Normally this cold air flows eastward to Canada and brings us cool, cloudy weather.

No. 2, the low in northern Manitoba and Saskatchewan, carries cold polar air back to the northwest.

This warm air move, unobstructed by any colder air masses, up the coast, across the interior of B.C. and thence descends the east slopes of the Rockies as a warm dry Chinook wind.

NO CHANGE SEEN
Since this general arrangement of the pressure systems has been stationary now for four days, a prolonged period of unusual Indian Summer weather has resulted.

Although a change could occur within two days, to break in the warm flow is in sight on the weather charts at the Dominion public Weather Office.

**2420 Hotel Employees
Seek New Wage Scale**

Provincial Government conciliation is sought by approximately 2420 Edmonton hotel service and beverage room employees in a dispute over new wage and working agreements.

Announcement of an application for conciliation was made today by business agent Joseph Cherrington on behalf of local 260 of International Hotel Service Workers and Beverage Dispensers International Local 979.

EDMONTON BULLETIN, Thursday, Nov. 3, 1940

Game Attracting American Hunters

Big Game Seasons Are
Opened In Alberta Tuesday

Alberta's big game is drawing between 350 and 400 American hunters to the province, provincial game branch authorities said today.

Hunting season for deer, moose and elk opened Tuesday and will continue until the end of the month.

A slightly increased number of American hunters, compared to those shooting in Alberta last year, are expected. All are required to use the services of guides during their hunting trips and game branch officials said today all guides available in the province will be employed during the season.

All hunters, both American and Canadian, are obliged to obtain roving seals when they take out hunting licenses.

One seal is issued which may be used for one animal of either deer, moose or elk species anywhere in the province. Bag limit is one animal per hunter.

NO USE
Seals for sheep and goat roving obtained earlier in the season, and not used for these animals, cannot be used for elk, moose or deer, game branch officials stressed.

Black, brown, cinnamon and grizzly bears may be hunted in the province until the end of November without the use of seals.

Next week will mark the end of the game and migratory bird season in the Edmonton area.

North of the Saskatchewan river and highway 16 the season for grouse, partridge and prairie chickens will close Nov. 12.

Ducks and geese may be taken in the area of the province north of Red Deer and Highway 11 and 12 until Nov. 12.

**Two More
Polo Cases
Are Reported**

Two new polo cases, both from Medicine Hat, brought the provincial total to 16, provincial health authorities said today.

Latest victims are a boy of four and a boy of five years, both of Medicine Hat. Six deaths the province health department reported today.

Mr. H. Van Caster will be on hand at the trustees' meeting in Calgary today for just that purpose.

**Lawuit Follows
Road Collision**

A truck-builder collision resulting in a \$2,708 lawsuit being filed in Supreme Court yesterday.

Karl Tranner, Lescar truck driver, claims negligence and carelessness on the part of the operator of a bulldozer owned by James and Reimer Ltd., Edmonton, was the cause of a collision which caused severe damage to his truck.

In a statement of claim, he states he was driving his truck November 1, 1940, on a private road near Lescar, where he overtook the bulldozer.

Just as he was about to pass the machine, it swung into his path without showing any signal, he claims.

**Address Here
Is Incorrect**

The Bulletin wishes to correct an erroneous report that Sam Kee, slain Chinese market gardener, lived at 2445-82 street.

Kee was found strangled to death in his room at 12601-82 street, October 8.

• Size 12 years. Priced at 22.50

JOHNSTONE WALKER

Challenge to Victors

Whether the victors in yesterday's strife would realize it or not, the citizens of Edmonton have laid a challenge before them.

The voting was the heaviest, and the results were the closest, in 15 years. The turnout of voters and their approval of all the money lavished on the city by the citizens are fully aware of the urgent need

Sanity and the Law

In two recent murder trials in Edmonton the defence have pleaded insanity. In neither case was the insanity plea proven. Both men were sentenced to hang.

However, it brings up the legal insanity in the eyes of the law. Most legal men admit that the terms of the law in regard to criminal insanity are far too narrow and totally obsolete.

Firstly, in the eyes of the law, there can be no in-between, no degrees of sanity or insanity. It is the same as saying that one man is a genius while another is merely brilliant. In both cases it's just a matter of opinion.

Secondly, the basis for judging criminal insanity is too narrow, the psychiatrists

for action on such vital issues as town planning, better public services and the many other problems which always beset a rapidly-growing city.

The next few years are going to be vital ones in the development of Edmonton. We earnestly hope that the incoming administrators match the vision of the citizens and give the city the active and forceful administration it so vitally needs.

agree. The law is based on an act passed in England in 1843. According to this act, insanity shall be judged solely according to the man's ability to determine right from wrong.

In its day, this was advanced legislation, but no psychiatrist today would consider judging a man's sanity in such limited terms. The judging of sanity has now become a science in itself involving detailed study of the individual's background, all his desires, loves, hates and motivations.

It is, therefore, obvious that the criminal code is in serious need of overhauling in matters of criminal insanity, if proper protection is to be given to the public and justice done.

R.C.N. Report

Mutinous incidents in the Royal Canadian Navy were the subject of a report issued by Defence Minister Claxton on Tuesday.

Disturbing though these incidents may have been, they should not be allowed to panic the public or the authorities into assuming that there is anything fundamentally wrong with the R.C.N.

In peace time, the popular mistake is often made of trying to turn an armed service into a democratic institution. In the accepted sense, its prime function is to prepare itself for battle. In battle, discipline is a very necessary part of the only way it can be taught is during training in time of peace. War is totalitarian, and to kill is certainly not democratic.

The officers and petty officers involved in the incidents aboard the ships in question have been blamed for not paying attention to certain signs which should have told them that all was not well. When you have spent the rest of your life in a service, you grow to accept as normal certain conditions which to the uninitiated may seem to be severe. You cannot always wander to the wants of every discontented who has a grouse to air.

Many of the present generation are

growing up without any experience of discipline or self-restraint, and a revolt among some of them join a service, such as the Navy, and find they have to do as they are told, they resent it and complain bitterly.

The next step is for the politicians to get hold of the incident, and with a view to votes at the next election, magnify the whole thing out of all proportion, and then stand forth in sanctimonious support of the oppressed.

It is peculiar how in times of peace the armed forces get a barrage of abuse hurled at them from all directions. In war, the discipline in the accepted sense, its prime function is to prepare itself for battle. In battle, discipline is a very necessary part of the only way it can be taught is during training in time of peace. War is totalitarian, and to kill is certainly not democratic.

There is no necessity for any unfairness or unnecessary hardship during training. Discipline is a very necessary part of the only way it can be taught is during training in time of peace. War is totalitarian, and to kill is certainly not democratic.

And Nothing Can Be Done About It

By Webster

ONE DAY A SCOTCHMAN TOOK HIS GIRL FOR A DRIVE IN THE PARK, AND WHEN THEY PASSED A POPCORN STAND, HE SAID: "YOU! THAT POPCORN SURE SMELLS GOOD."

"WAIT A MINUTE," SAID SANDY, "AND I'LL DRIVE UP CLOSER SO YOU CAN GET A BETTER WHIFF OF IT."

YOU'D THINK HE WOULD HAVE OFFERED TO BUY HER A BAG OF POPCORN

Edmonton Drivers

Need Some Advice

Edmonton people should be careful about visiting Calgary. It makes one stiff. You lose your usual alertness and agility. When you cross a Calgary street the motorists stare at you. They even stop to let you pass.

As a matter of fact you can go to Calgary with perfect ease, knowing that motorists will actually swing to one side or the other to avoid you.

What happens, after a few hours of being lulled into a false sense of security by the Calgary motorists? You return to Edmonton and discover you have become stiff.

You can no longer leap over a car with your arms and legs. You have lost the knack of darting across the safety lanes before any weaving motorist can catch you.

You are trying to cross the street in Edmonton, you only do that once.

Conditions Improved Some Much has been done in Edmonton to improve the traffic conditions. Added traffic lights have been a help. The one safety rule that has been made good.

In fact, one gets the impression that Edmonton traffic has been vastly improved. Then you visit another city and discover that a set time pedestrian can rest.

Neither is Calgary, by any means, the best in traffic matters. But you can't compare it to the narrow Calgary streets. It would seem motorists would be less ready to give pedestrians a break in Calgary than in Edmonton.

Yet, in Edmonton, pedestrians do not have to wait for a car to pass. In fact, the only difference is that instead of taking the horn, you use the brakes more often.

In the fact, the only difference is that instead of taking the horn, you use the brakes more often. In fact, the only difference is that instead of taking the horn, you use the brakes more often.

There is always a tendency for people to copy each other. Thus, if the motorists in the rights of pedestrians in the manner in which they pass to try it can prove this very definite right, in far too many cases, those rights are not being passed on.

Letters to the Editor

Girls at Dances Are Criticized

Editor, Bulletin—I would like to bring up a subject that I have heard a great deal of discussion about among men and which undoubtedly also is discussed by women.

It concerns dancing and dancing partners. Last Wednesday I went to a dance at the Rialto and was surprised to find a girl in a credit to Edmonton. I had a dance with one partner who considered to be a good dancer.

Before I go any further, let me explain that I do not consider myself to be a wonderful dancer—just average.

A fox trot was announced which turned out to be a rumba. I have yet to find a girl in Edmonton who can dance a rumba, but then, I have also found few men who can dance it either.

Next was a waltz. The partner I had for this dance was a charming little girl, but she was not a very good dancer. She was a little bit of a ringer for the girl who was with me at the dance.

Edmonton this year did not report any serious trouble apart from some damage to streets and lights. The would indicate that Edmonton knows how to enjoy itself without becoming a nuisance to the whole community.

Old Dad Should Spank

Editor, Bulletin—Congratulations to you on your recent issue of "Violence" editorial. Keep it up. Sir, that Fort needs a woodshed where "old daddy" Law can take his bad sons.

One thing I disagree with you on is the surmise that spanking is not reformative where the grown man is concerned. Magistrate Primrose proved otherwise by spanking a crime wave by cleaning up a crime wave in this city by spanking grown men.

Modern psychology tries to tell us that spanking is foolish and ineffective, while the truth is that it makes the child foolish and therefore most often, it makes so on an adult than a child is greater. It is this pride that makes a parent so proud of a grown up even though he deserves it and the Bible commands it.

The law is to the adult what the parent is to the child. Where is the same parent living that would send his unruly boy to a new American prison called "The Rialto Wind"?

It was about the anti-luck law that the law is to the adult what the parent is to the child. Where is the same parent living that would send his unruly boy to a new American prison called "The Rialto Wind"?

Helps Traffic

Editor, Bulletin—For some people, reason, people accept methods instead of results and therefore soon abandon objectives. The objective of traffic is to get the car out of the way and let the car out of the way.

When it comes to traffic, the objective is to get the car out of the way and let the car out of the way. When it comes to traffic, the objective is to get the car out of the way and let the car out of the way.

Diamond Mining Film Background

Fabulous South African Diamond Area Is Locale

Diamonds, that most precious of all jewels, have a colorful, multifaceted history, clouded through the ages in an atmosphere of accident, adventure, intrigue and mystery, all of which have been captured by Producer Hal Wallis for his thrill-film, Paramount's "Rope of Sand," starting tomorrow at the Capitol theatre.

The adventure-drama is set in the far-away diamond region of South Africa and co-stars Burt Lancaster, Paul Henreid, Claude Rains, Peter Lorre and lovely French newcomer, Corinne Calvet.

It tells a suspenseful story of vengeance and greed, with diamond-bunger providing the powerful motivation from which the sensational action stems.

INTERESTING FACTS

Pre-production research for the film brought forth some interesting information about the King of gems.

It may not be generally known that strangers approaching African diamond territory, where the gems are visible on the deserts' "rope of sand," are stopped by a huge sign reading: WARNING! You are approaching forbidden territory. TURN BACK! Trespassers are liable to suffer bodily harm, a fine of 500 pounds or five years in jail.

There are armed, police and electrically charged barbed wire

entanglements to make the threat additionally eloquent.

CRUEL COMMANDER

In the film, Henreid portrays the sadistically cruel Commander in charge of this forbidden area. Lancaster, his sworn enemy, defies him and his shoot-to-kill police, to enter the restricted, diamond-rich desert, scene of the melodrama's most savage fighting between the two men.

Danger and suspicion are everywhere in Diamondland. Native miners, Kaffirs, live like prisoners in encampments surrounded by electrified barbed-wire. They risk severe penalties to steal diamonds which they hide within self-inflicted wounds.

THE NEWEST, THE GREATEST ADVANCE IN RADIO PHONOGRAPH ENJOYMENT!

LUXURIOUS NEW PHILCO COMBINATION

FULLY AUTOMATIC for ALL Records and for ALL 3 Speeds... with a Single Tone Arm and One Spindle

You'll hardly believe your own ears! For this magnificent new Philco plays not only the newest type records, but the old conventional records with the finest tone and the greatest fidelity ever achieved in recorded music. Its powerful 12" speaker delivers up to 15 watts of undistorted output from radio or records. Standard

and short wave tuning bands, low-impedance built-in loop aerial, 7 fully efficient tubes—are among the features that make this the finest Philco ever offered. Beautifully designed hand-finished cabinet is further embellished by deluxe front panel of selected, highly priced African ivory mahogany.

Finest Tonal Reproduction Ever Achieved

New Philco Super-Tone Reproduction plays all records, old or new, with better tone than ever before. For the first time, all records, including conventional 78 R.P.M. are covered with just 1 1/2 of an ounce pressure. Preserves highs and lows in perfect balance.

PHILCO '72'

Additional Sport

Evans New

Ski Prexy

Bill Evans was elected president of the Eskimo Ski Club last night, succeeding John Macdonald.

Other officers named: vice president Mrs. Pansy Strange, secretary Doni Wilman, treasurer John Wood, hill captain John Gibb, assistant convener Helen Cornish, chairwoman Al Manning, Don Hensley, and Al Manning. Al Hensley was appointed head of the publicity department.

Every Sunday from now till the snow falls will be spent working on the hill at Whitemud Creek.

Penguins Win

4th Home Tilt

PORTLAND, Nov. 3.—(AP)—Portland Penguins came up with their fourth win of the season last night—all at home—by defeating Tacoma 6-5 in their sixth Coast Hockey league game.

Morris Hamilton got a solo goal after 27 seconds of the first period and added two later to pace the attack.

Al Savick, Gordie Kerr and Hugh Sutherland added the others while Bill Jenkins, Doug Read and Doug Teale got Tacoma scores.

Omaha Drops

6-1 Decision

MINNEAPOLIS, Nov. 3.—(AP)—Minnesota moved two goals in the first four minutes last night and defeated Omaha 6-1 in a United States Hockey league game. It was the winners' sixth victory, plus one tie, in seven games this season.

Hartley McLeod got Omaha's only tally in the final period. Billy Warwick led the Minneapolis scorers with two goals, while George Humeau, Frank King, Wally Hergemeier and George Agar garnered the others.

Royals Paste

Cougars 9-7

NEW WESTMINSTER, Nov. 3.—(CP)—New Westminster Royals clung last night to an early lead and downed Victoria Cougars 9-7 in a Pacific Coast Hockey League scoring contest.

The second-place Royals led 5-1 at the end of the first session and ran wild in the second for five markers that gave them an 8-0 edge.

New Westminster's player-coach Bob Pratt and Normie Kirk scored twice each, while Dorothea Bud Ritchie, Ken Ullist and Amy Duffell got singles. Bud Evans and Bernie Strongman got doubles for Cougars and Eddie Mann, George Bougie and Bob West one apiece.

US Trade Choice Is Buy or Donate

Gifts Paid ¾ of Apparent Favorable Balance in 35 Years

NEW YORK, Nov. 3.—(AP)—State Secretary Dean Acheson called on the United States last night to reverse its 30-year-old foreign trade policy and become an "import-minded" country, in order to close a \$6,000,000,000 trade gap.

Acheson proclaimed to the national foreign trade council a campaign to reduce tariffs, simplify customs, "modernize" other laws and otherwise expand the opportunities for foreign producers to sell their goods in the United States.

The United States, he said, must get away from the system under which, for years, it has financed the shipment of huge amounts of its products abroad through gifts or large government loans. Such measures as the European Recovery Program, he said, have served major national objectives but "have not been to our advantage as customers."

They have reduced the supply of goods which otherwise would have been available to American buyers, Acheson said.

He said that for years he has heard that the United States has a "favorable" balance of trade because it sells abroad more than it buys abroad. In the years 1914 through 1948, it has run up an export surplus of slightly more than \$100,000,000,000 about two-thirds of which was paid for by U.S. government grants and loans. He said there is a large gap to close by increasing our imports.

Unless this problem is solved, "I don't see how the free world, structure which we have been building can have a solid economic base," Acheson said.

There was a field of 111 as the 72-hole \$7,500 event got under way.

15 Years For Attack

SEATTLE, Nov. 3.—(AP)—It was a busy night in the goal mouth as the Seattle franchise squeaked out a 3-2 victory over Vancouver Canucks in their Pacific Coast Hockey league contest last night.

Lacien Deschene of Vancouver hoisted 27 shots on goal, while Seattle's netminder Ron Pichel turned aside 33 Vancouver shots.

Harry Ken Simpson and Pete Halapaga scored for the winners. McAndrew and Wimpy Jones notched, Vancouver markers.

A six-team limit has been put on the Commercial hockey league. That was the word coming out of Recreation Commission headquarters yesterday.

Teams already entered are: Ashdown, Imperial Oil, LaSalle Club, Foresters and Civil Service Recreation Association. Sixth team will be known at the next meeting.

Monday. Two prospective entries are the Journal and Gaylows.

Ex-Hockeyist Dies
KIRKLAND LAKE, Ont., Nov. 3.—(CP)—Bill Brydges, 45, who played about 10 years in the National Hockey League, died here yesterday. He had been ill some time.

The first university founded in British Canada, was Kings, Nova Scotia, in 1788.

QUICKIES —By Ken Reynolds

"...I'D SAY we did pretty well with that Bulletin Want Ad we used yesterday?"

Buy Scottish Castle
KINCARDINE-ON-FORTH, Fife, Scotland.—(CP)—The ministry of works has acquired Tulliallan Castle for use as a permanent Scottish police college.

Parliament At A Glance

By The Canadian Press
Justice Minister Gieson said legislation will be introduced to plug holes in the combines investigation act.

Wulff Lacroix (L.—Quebec-Montreal) urged the government to ease the income tax burden on farmers.

Robert Fair (SC—Battle River) said elevator freight rates on all products should be removed.

The senate passed a bill establishing appeals to the judicial committee of the privy council.

The commons will resume the budget debate. The senate will sit.

Four Prairie Cities Pick New Councils

From CP and BUP Dispatches

REGINA, Nov. 3.—(CP)—Mayor Garnet Menzies, leading a Civic Voters' Association slate, was re-elected for a second term in Regina's civic elections today, defeating W. C. Bechling, an independent.

The CVA aldermanic slate claimed an overwhelming victory over the first official CFP slate in municipal voting. Elected were L. W. Carey, G. B. Grant, L. Robinson, Leo Lethbridge and A. A. Riddell.

CVA victory

CVA candidates also defeated independents for school board.

In North Battleford, A. F. Searcy-Cousins was elected mayor. A. N. Whetton led the aldermanic vote while Charlie Williams and William Lafreniere were also picked. Labor candidate George Knox was defeated.

Public collegiate and high school boards were returned.

An unofficial count in Moose Jaw gives L. H. Leary a 200-vote lead over Russell Brownbridge for the mayoralty.

All aldermanic candidates of Leary's Civic Reform Association appeared to be defeated this morning.

In Saskatoon voting, eight money bylaws were approved overwhelmingly. They total about \$2,000,000.

Re-elected to council were Mr. Marjorie Walker, George Nesbitt, John Cairns, R. H. Hunter and S. F. Busho. All are independents.

SWEPT OFF HER FEET

Pianist-Wife Spurns Love of Husband, 70

NEW YORK, Nov. 3.—(BUP)—Concert pianist Frances Tules, 49, asked a court today for a separation from her 70-year-old husband, declaring that he was too ardent a lover.

Asking \$250 weekly temporary alimony and \$25,000 fees for her attorney, the pianist declared that her husband, Gerhard Havelig, had "amazing vitality for his age." But she said his demands upon her made her life one of drudgery.

She said the retired German industrialist swept her off her feet when he began courting her three years ago while he was a student in a class she was teaching at Hunter College.

"He was a man of about 67 years," she said, "handsome, distinguished looking and of culture and refinement. We were mutually attracted by our common love of music, the arts and culture. Quickly, he professed an ardent love and swept me off my feet by his unremitting literary attention."

They were married July 23, 1947. After that, she said, he became more demanding, at the same time insisting that she continue studying for a doctor of philosophy degree and keep house for him.

State supreme court Justice James B. McNally gave Havelig's suit Friday to answer the plea.

Black Market Ring Broken In London

By H. L. JONES

LONDON, Nov. 3.—(CP)—A black-market ring dealing in gold, jewelry and nylon was broken today following several month-long raids by Scotland Yard in which seven men were arrested.

Scotland Yard officers said investigations are still continuing in the case involving the disappearance of gold bullion worth thousands of pounds from London airport over a long period and thefts of jewelry and other valuables from the baggage of airline passengers. Other arrests are expected soon.

ARRESTED IN RAIDS

The seven were arrested in raids on London airport and neighboring public houses last night. They appeared in University police court today. Six, described as loaders employed by British Overseas Airways Corporation, were charged with stealing a box of gold worth £2,300 (\$7,130). The seventh, described as a club steward, was charged with unlawfully receiving gold which was the property of BOAC.

Several of the men also were charged with complicity in the thefts involving nylon stockings, jewelry, perfume, cigarettes and other valuables. All were remanded on bail until Nov. 21.

AMOUNT UNKNOWN

The amount of bullion and other valuables missing is not yet known. Most of it has disappeared from the hands of long-range airliners. Particularly those flying to and from New York and Sydney, Australia.

Police were tight-mouthed about investigations. But a Scotland Yard spokesman, asked if he believed the arrests had broken a huge black-market ring replied: "It is a start."

Devalued Pound May Affect Cost-of-Living

OTTAWA, Nov. 3.—(CP)—Canada may learn tomorrow what devaluation is doing to living costs. Devaluation, which swept almost all parts of the world last month, is expected to show some of its impact in September's cost-of-living index issued by the Bureau of Statistics.

The index calculated on the basis that 1955-59 equals 100, now stands at 162.1, after a half-point drop in August, first decline in a continuous half-year upward climb.

FITS EVERYONE'S BUDGET

This is a Henry Singer blazer being admired by 2 students during Freshman Introduction Week as shown in Edmonton Bulletin.

By J D

It was like old times last night, a good old-fashioned ding-dong battle to name Edmonton's new boss for the next two years.

Mayor Parsons got sufficient votes to do the trick but it was almost a photo finish.

His didn't have easy bedtime he got around and his faithful followers gathered in campaign headquarters were on pins and needles right up until the last poll was in.

Mayor Parsons is a real hot fan. Remember how he chased the boom for a downtown arena a year ago last month?

One of the first things His Worship said after his election was:

"I used to have a heck of a time getting hockey tickets. Now I'll get a seat at all and I may even be a box seat. And I'll be able to get council adjourned early, nights the Flyers play at home."

Rhetoric nights are always fun in the Bulletin news room. Folks turn up that you haven't seen in ages.

Tom Campbell, the furniture man, not so long ago he ran over to Australia and Zealand, was up to get the latest news on the alternative race.

BUSH PILOT CALLS

Famed northland airman Stan McMillan, was another one who was concerned over the would pilot the oval state Edmonton for the next 12 months. He's been out mapping the country from an airplane for the last six months and he's a little interested about who made city attorney.

Coach Anna Stukas of Edmonton Eskimos football team was right in the middle of our bustle last night. He was in the election just. Somebody pointed to Stukas and asked: "Is he running for mayor too?"

Coach Stukas was plenty quick with the comeback: "No, those don't vote on our unit next week."

That's when the Eskimo power-house will decide on whether Stukas stays for another season.

DUCEY WAS THERE

Then there was Mister Haseb, himself, the one and only John "Letty" Ducey. Ducey had a suggestion to make. He thinks programs should be sold in the news-room with names and numbers of all candidates. Ducey pointed out that without numbers you can't tell the candidates from "ordinary, honest people."

A trade-union friend of mine suggested we ask trade union Mayor Parsons how he felt crossing the picket line to enter the Journal newspaper building after the election.

It was funny to hear each of the three leading mayoral candidates beguile the voters they just because it wasn't a straight two-man battle. Each was convinced "let" would have had a romp if it hadn't been for that third guy.

It was a good, clean fight and Sidney came out on top.

Poll Clerk Has His Fun

Shades of Bergen and McCarthy brightened a dull day yesterday for election workers in poll 13, Second United Church.

Joe Jones, heading a group of poll clerks waiting patiently for voters to show up, kept things hopping with his ventriloquism and wit.

"He's a ring-lashed anorak for language," said one clerk.

When Sid Parsons appeared to cast his ballot, Mr. Jones threw his voice inside a ballot box to inquire how Mr. Parsons had voted. Then he climaxed his impromptu show with a comment from inside the box about how a "Parsons come to be voting in the church?"

Cyclist Injured In Traffic Smash

Mike Chicho of Leduc, was the victim of a motorcycle-car collision yesterday afternoon.

The cyclist was taken to Royal Alexandra hospital after he was collared at the intersection of 100 street and 106A avenue with a taxi driven by Robert Walden. He suffered a bruised shoulder and shank.

Higher Gold Price Asked by Mines

TORONTO, Nov. 3.—(U.P.)—The Ontario Mining Association called yesterday for higher prices for gold as a means of encouraging development of the province's mineral wealth.

VICTORY KISS for winner came from Mrs. Sid Parsons to husband in Bulletin news-room last night as proud wife wept with happiness. Edmonton's first lady was more than excited when news came that "Daddy" had been elected mayor. Sid was probably Edmonton's most tired but most happy man as he headed homeward around midnight.

LAWSON SAYS

Smug Smile Is All Part Of Victory

For Kenneth Lawson, his election as alderman was a family, as well as a civic, victory.

Mr. Lawson accepted the Citizens Committee nomination against the advice of his wife, Edith.

"I was laughing, really," said a "disapproving" Edith, who until the campaign was going, then she climbed on the bandwagon, and, along with a number of other citizens, beat the drum for her husband.

"But if Mr. Lawson's attitude is that he is a smug smile, Mrs. Lawson has no alternative but to put it down as one of the spoils of battle belonging to the victor."

Double Dose For Policeman

Constable Guy Pelham of the city police force had his fill of accidents yesterday afternoon.

He was just leaving the courthouse after testifying in an accident case when a crash occurred between a taxi and a motorcycle on the courthouse corner.

The constable rushed to the scene and assisted in dispatching the rider, Mike Chicho, to the hospital.

PENNY PINCHER GOES TOO FAR THIS TIME

Thrift is usually considered a commendable trait.

But police today are on the trail of a "penny pincher."

At 4063-103 avenue, complained to police last night someone entered his apartment and plundered a thousand pennies.

The penny pincher is obviously a clock winder as well. He also helped himself to an alarm clock and a watch.

4 New Faces On Council

Aldermen Get Set For Heavy Sessions

Edmonton's 12th council session, which the aldermen campaign race ended was expressed last night and today by unexpected and emotional scenes.

Only note of real disappointment came from Independent Alderman Kenneth Lawson, "The citizens' committee can nominate any dumbbell but a person that a citizen doesn't have to sell himself. The people see the quality of a sincere person."

There was still a feeling of surprise and excitement in the air as the new council members took their oaths and prepared for the heavy sessions ahead.

The council session was held in the city hall, and the atmosphere was one of anticipation and excitement. The new council members were introduced to the public, and the session was a success.

Mayor's Wife Beams 'Pride in Husband

Mrs. Sidney Parsons Prime Example Of Confidence in City's New Mayor

By Thomas Kimball
If Sid Parsons makes as good a mayor as he has husband and father Edmonton will blossom, said excited, happy Mrs. Parsons last night.

The city's brand new mayor's beamed pride and approval as election results showed Edmonton's confidence in her husband.

An every woman knows, running a household is a full-time job, and her husband happens to be as active in civic affairs as Sid Parsons has been for the past decade and more, then it's doubly tiring.

FIRESIDE BACKER
Silver-haired Mrs. Parsons adds her major contribution to her husband's success in civil politics can be neatly labelled under many names to stay at the hearth home with the children while he attends meetings.

With three strapping sons and three grandchildren to prove her worth as mother and homemaker, the new mayor's wife looks forward to the next few years of life in the public eye.

"I know I'll completely enjoy being the city's official housewife," Edmonton's informal friendliness fills her with confidence for my end of the job," she said as she bubbled with happiness and enthusiasm.

EXCITEMENT RIDES HIGH
An attractive, poised woman, racy and charming of manner, Mrs. Parsons has a spontaneous gaiety which trickled through as the told of her excitement yesterday.

When dressing for the occasion, she waited in the common room yesterday afternoon, she put her best, frilliest white blouse on, and then she knew what to do.

"My daughter-in-law, young Sid's wife, came to my rescue with her prettiest pale pink blouse... and here I am!"

And there she was, looking very attractive and maverickish in a moment's notice, was seen with the fringing of pale pink blouse, a pretty, beaded black hat and blue evening shoes.

FAVORITE STEAK DINNER
"You know, I'm so proud of my husband I'm going to cook his favorite dinner for him tomorrow. He just loves steak and onions with lemon pie, lots of lemon pie and dessert."

"I know he'll be a good mayor," she said with a good natured smile. "I know he'll be a good mayor," she said with a good natured smile.

Kitchen arrangements are in the hands of Mrs. E. Muttart, Mrs. W. J. Moffat and Mrs. E. Thompson. Miss J. McNeill will be treasurer.

Skilled Weaver Presents Work at Guild Exhibition
Weaving by Mary Sandin will be featured by the Edmonton Branch of the Canadian Handicrafts Guild at the annual fall exhibit in Convocation Hall, Nov. 11 and 12.

Holder of the award of Master Craftsman from the Boston Academy of Arts and Crafts, Mrs. Sandin will display handwoven table linens, woolen yardages, and home-spun for both upholstery and costume material in beautiful soft colors for modern use.

The same homespun yarn in shades will give the "Historic and Artistic" side of the projects.

PRIZE-WINNER
Expected to attract much attention is the woven table square which won her the award for perfection in weaving in a Dominion-wide competition of the Canadian Handicrafts Guild a few years ago.

Three other weaving projects occupy Mary Sandin since 1943 a group of Edmonton women have met under her direction, and exhibits of their work have been featured at exhibits across Canada.

In 1942 Mrs. Sandin joined the weaving staff of the Banff School of Fine Arts.

Elizabeth Arden
Annual Tea Of Norwood OES Friday
Handicrafts bazaar and tea, an annual event of Norwood Chapter No. 24, Order of the Eastern Star, will be held in the downstairs club room of the Masonic Temple Friday at 2 p.m.

Miss L. MacLaren Anderson, worthy patron, will receive guests. Conveners are Mrs. C. M. Dean and Mrs. F. H. Whitson.

Presiding at the tea will be Mrs. J. W. Duke, Mrs. L. H. Arnold, Mrs. G. Stevenson, Mrs. A. M. Allen, Mrs. J. A. Tupper and Miss Mary Smith.

SOCIAL and PERSONAL

PROUD AS PUNCH of her husband, Mrs. Sidney Parsons leads Edmonton people in hailing their new mayor, Mrs. Parsons, whose principal interests are centered in husband, family and home, looks forward to her years as wife of mayor of Canada's city of the future.

Mrs. R. A. Harrison Is Convener Of Tea Arrangements for Bazaar

Mrs. R. A. Harrison is in charge of arrangements for the tea to be held in conjunction with the annual Junior Hospital League bazaar. Invited to pour are Mrs. Richard Proctor, Miss Helen Penhale, Mrs. F. E. Dymen, Mrs. J. A. Emery, Miss Hazeline Bishop and Miss Margaret Dick.

Mrs. John McMillan is general convener of the mammoth annual affair, which will take place at the Trocadero Ballroom Friday at 2:30 p.m.

Sunday Musicales Start Again At Museum Of Arts
Music lovers will welcome a new season of Sunday afternoon musicales in the Museum of Arts.

Pre-Bridge Lunch Is Hostess Favorite

Attractive, Tasty Menus
Fill Bill for Entertaining

Something for the girls—luncheon before bridge instead of refreshments after, is easier on both hostess and guests.

It is fun for the girls to lunch together, and enjoy a chat about things that are coming up with bridge. Once the game commences, all that watering is out.

Swiftness of service is of prime importance when it is a bridge luncheon. You want to enter lunch in a timely way, but you don't want to wait an afternoon to slip away before getting on with the game.

The food will look beautiful set on a table with a white cloth, and with a very attractive centerpiece. The hostess is filling the plates in the kitchen, and bringing them to the table.

Don't do this to the dessert though, for you want everyone to see to achievement before it is out. The whole point is food should arrive as rapidly as possible, popping hot, or cold, and the plated should be removed with the same speed. Serve with speed and all is well.

On a small winter day, your menu should be something that is easy to eat. For the main course, you need something that is easy to eat.

For dessert, apricot Bavarose, is a good choice. It is a good choice for a dessert.

NOVEMBER special consists of cranberry parfait and jelly cookies.

Try to turn them upside down and push them under with a fork so that inside as well as outside will be brown and crisp. Drain on paper towels.

To serve, fill crostades high with curried beef and sprinkle with chopped parsley.

APRICOT BAVAROSE
This is a lemon pudding, and should be made a day in advance of the party.

You will need four one-half cups of apricot jam, about one inch square than the pan in which you are going to mold the pudding.

Cover 1 pound dried apricots with 3 cups water and soak several hours, or overnight if you like.

Cover and cook gentle until tender. Drain and add 1 cup sugar. 3 eggs, water and 2 cups apricot jam, and add 1 cup sugar.

Put in a bowl and add 1 cup sugar. 3 eggs, water and 2 cups apricot jam, and add 1 cup sugar.

Put in a bowl and add 1 cup sugar. 3 eggs, water and 2 cups apricot jam, and add 1 cup sugar.

Put in a bowl and add 1 cup sugar. 3 eggs, water and 2 cups apricot jam, and add 1 cup sugar.

Teen-Age Partyers Love Sundae Buffets

Looking for a new idea for entertaining the teen-age set? Then plan a sundae buffet.

The trick lies in having a variety of fruit sauces, just like the corner ice cream parlor. Incidentally, that's where you get your ice cream in bulk.

Your pantry and refrigerator shelves can supply the makings of many delicious sundaes. You can make a lot of them in advance.

1. Boil juice from fresh-frozen strawberries into marshmallow sauce. Good with sundaes.

2. Boil juice from fresh-frozen raspberries into marshmallow sauce. Good with sundaes.

3. Boil juice from fresh-frozen blueberries into marshmallow sauce. Good with sundaes.

4. Boil juice from fresh-frozen blackberries into marshmallow sauce. Good with sundaes.

5. Boil juice from fresh-frozen cherries into marshmallow sauce. Good with sundaes.

6. Boil juice from fresh-frozen peaches into marshmallow sauce. Good with sundaes.

7. Boil juice from fresh-frozen plums into marshmallow sauce. Good with sundaes.

8. Boil juice from fresh-frozen apricots into marshmallow sauce. Good with sundaes.

9. Boil juice from fresh-frozen pears into marshmallow sauce. Good with sundaes.

10. Boil juice from fresh-frozen apples into marshmallow sauce. Good with sundaes.

11. Boil juice from fresh-frozen oranges into marshmallow sauce. Good with sundaes.

12. Boil juice from fresh-frozen lemons into marshmallow sauce. Good with sundaes.

13. Boil juice from fresh-frozen limes into marshmallow sauce. Good with sundaes.

14. Boil juice from fresh-frozen grapefruit into marshmallow sauce. Good with sundaes.

15. Boil juice from fresh-frozen pineapples into marshmallow sauce. Good with sundaes.

16. Boil juice from fresh-frozen mangoes into marshmallow sauce. Good with sundaes.

17. Boil juice from fresh-frozen papayas into marshmallow sauce. Good with sundaes.

18. Boil juice from fresh-frozen guavas into marshmallow sauce. Good with sundaes.

19. Boil juice from fresh-frozen passion fruit into marshmallow sauce. Good with sundaes.

20. Boil juice from fresh-frozen dragon fruit into marshmallow sauce. Good with sundaes.

21. Boil juice from fresh-frozen kiwifruit into marshmallow sauce. Good with sundaes.

22. Boil juice from fresh-frozen figs into marshmallow sauce. Good with sundaes.

23. Boil juice from fresh-frozen dates into marshmallow sauce. Good with sundaes.

The Kindly Policeman Is Your Friend and Helper

Dear Tawasi:
Have you ever thought what it would be like to be a policeman? In our big city we have many policemen who work in different ways to make life safe for people.
First, there's the big policeman who stands on street corners and makes sure that people don't get run over by cars, and that everybody behaves.
He usually walks around all day checking at stores. He asks the owners if everything is all right. He also keeps motorists from violating traffic regulations.
Sometimes one of our Tawasis must surely have seen him open a strange-looking green box on a telephone pole and talk into the box.
GOOD SYSTEM
Actually, there is nothing mysterious about this. It is a marvelous telephone communication system with the police station.
From police station, the policeman on the beat knows exactly what is happening all over the city and can help track down bandits if his assistance is needed.
Then there is the policeman who rides a motorcycle and chases car-drivers who are riding too fast in the city.

Ship Home From Arctic

MONTREAL, Nov. 3.—(CP)—The little Jeanne d'Arc came home from the Arctic Tuesday—after 14,000 miles of weather to rough seas and the ship's crew and passengers must have depended on "somebody" watching us constantly.
Gales, blizzards, fog and engine trouble harassed the 500-ton missionary supply ship during her 116-day voyage. The tiny, diesel-powered vessel is owned by the Oblate Fathers, Roman Catholic missionaries.
During her trip to Hudson Bay and the Arctic, the Polar delivered oil, food and Christmas gifts to about a dozen far northern settlements.

NEW YORK, Nov. 3.—(AP)—The British Broadcasting Corporation office here yesterday announced a 50-per-cent reduction in its New York staff as a result of demerolization. Fifteen employees of the office are being released, including the chief publicity clerk.

Birthday Greetings

Evaline McAdie was 12 October 31, and we'd like to wish her many happy returns of the day.
She's in grade seven at St. John's School, and very spelling is her favorite subject. She also likes playing basketball.
Evaline's ambition right now is to learn to play any piano at all.

Uncle Wiggily's Bedtime Story

By HOWARD R. GARIS

"Well, Billie and Johnnie Dush, I hope you find plenty of nuts this fall, Mr. Hunter Loudermilk." "If you please, Miss Mouse, we went to Great Island and Hunted since this is the first day of the fall season and we gave it to Uncle Wiggily for the Fresh Air Camp." "Oh, that sounds like quite an adventure. Suppose you and Huntie tell the other pupils about it." "We and Huntie told about finding the pirate gold and about the little Halloween ghosts and the other animal and girls thought the adventures of the little rabbits were simply wonderful." "What did you do this vacation, Jimmie?" "I ran a soap box motor boat at Uncle Wiggily's amusement park in Frog Pond and I had fun." "You children seem to have had very good times during the long vacation. But now school days are here again and we must learn our lessons." "Just then, as truly as I'm telling you, a knock sounded on the school door." "Oh, we must have visitors," squeaked Miss Mouse. "Hush! we'll see who is knocking at the door." "Hush! the rabbit went, opening the door. He was much surprised. I'll tell you about it tomorrow if times Billie and I climb trees to get nuts in real big oaks aren't private come out and roost some any nuts in summer, so we climb trees just for the fun of it!"

\$100 Million Cut In Canada Sales

UK Slaps Trade Loss Against

OTTAWA, Nov. 3.—(CP)—The United Kingdom has told Canada that she lacks dollars to buy Canadian eggs, bacon and veal, and that she will seek lower prices for these.

The U. K. proposals will be discussed today by cabinet and may be followed by trips overseas by either trade minister Howe or agriculture minister Gaudet.

The sources estimated that British demand for Canadian eggs, bacon and veal could cost Canada about \$60 million in exports in 1960. Price readjustments requested may bring the total loss to over \$100 million.

POULTRYMEN HURT
Egg exporters may be hit the hardest since Britain provided the largest export market for Canadian eggs. The 1960 Anglo-Canadian egg contract called for the shipment of approximately 46,000,000 dozens in fresh, frozen and processed form at a price of \$22,000,000.

Bacon does not appear to be a problem. Canada contracted to ship 100,000,000 pounds of British bacon at a price of \$10,000,000.

The sources estimated that the bacon loss may total between \$25,000,000 and \$30,000,000 if British holds to her decision not to buy Canadian bacon.

Newspaper sales have been small, amounting to about \$5,000,000 this year and with the world demand for this commodity still at a high level, Canadian exporters may have little trouble disposing of this amount in other areas.

WHEAT NOT UP YET
The sharp cut-back forecast for Canadian softwheat exports to the U. K. may drive 1960 sales from \$23,000,000 to \$20,000,000.

Britain has told Canada she would like to continue to buy 30,000,000 pounds of Canadian wheat next year, but the price will have to be lower than the 50 cents a pound Britain paid this year.

A price of about 40 cents a pound has been suggested.

The U. K. proposals were brought back Monday by the Mackenzie, deputy minister of trade, and J. G. Taggart, deputy minister of agriculture.

It was understood that wheat and some minor items such as salmon and small prairie were not discussed at the London meeting, but may be taken up at a later time. The wheat contract runs until next July 31.

FROM AIR
Flower Petals Greet Nehru In Vancouver

VANCOUVER, B. C., Nov. 3.—(UPI)—Prime Minister Jawahar Nehru was pelted by thousands of flower petals thrown from a low flying aircraft at Vancouver's city hall where he spoke an hour after arriving from India.

British Columbia's East Indian colony chartered the plane and threw out the flower petals. Nehru addressed thousands of citizens on the city hall steps.

The tight schedule of the Indian leader had a close call while his motorcade was enroute from airport to city hall.

A wooden cross passed under Margate bridge minutes before the procession reached the spot over the Fraser River, making it necessary for the bridge to be raised.

However, it was lowered just as the police motorcycle leading the motorcade reached the bridge.

U.S. Woos Spain Moscow Charges

LONDON, Nov. 3.—(UPI)—Moscow radio charged today that U.S. and Spain are "weaving intrigues to draw Spain into the Atlantic Pact."

The Yiddish Neely Moore and Dr. R. E. Whitmore will be in charge and have their own column in cover story.

Exploration Plan For Prince Rupert

PRINCE RUPERT, B. C., Nov. 3.—(UPI)—The mining and smelting company of Canada is operating premises here to carry on an exploration program in this area and the Yukon.

Neely Moore and Dr. R. E. Whitmore will be in charge and have their own column in cover story.

BE-POP ICKY TO SATCHMO

PARIS, Nov. 3.—(AP)— Jazz trumpeter Louis Armstrong said today that he has "nothing but mistakes." "It comes from the sticks," he told the Anglo-American Press Association. "Those kids come to a passage they don't dare tackle, so they play a thousand notes to get around it. It's just music. Nothing but squeaking and twining notes."

New Building Record Seen in Lethbridge

LETHBRIDGE, Nov. 3.—(CP)—The building boom in Lethbridge promises to establish another record.

Building permit figures released by the city's building inspector show that the 1949 permit total now stands at \$431,510, only \$152,724 short of the 1948 all-time record of \$584,234.

BUTTER 'UNLOADED' AT HIGHER PRICES

The federal government move to dispose of 60,000,000 pounds of butter bought and stored since early summer is not expected to affect butter prices in Edmonton immediately.

Edmonton dealers said today it was unlikely the government move would have an immediate effect on butter prices.

Dealers will continue to buy butter from other sources at the current market price until such time as these supplies are exhausted. It may be necessary then to purchase government stocks at the 58 cent a pound price, one spokesman explained.

In the Edmonton district about 58 cents a pound.

The 57 cent a pound price is about one cent higher than the current market price to wholesalers.

Hospitals Are Asked Refuse Indian Cases

CALGARY, Nov. 3.—(CP)—A recommendation that Alberta hospitals refuse treatment to Indians except in emergencies was made at the opening session yesterday of Associated Hospitals of Alberta convention.

James Barnes of Calgary, chairman of the Association's executive committee, recommended the recommendation "be advanced that until we are satisfied regarding payment of hospitalization costs, hospitals will not admit Indians as patients except in emergencies."

Mr. Barnes recommended that "if the government wishes to give charity that it does so openly and at its own expense by hospitalizing Indian patients in veterans' hospitals and not at the expense of the general hospitals of Alberta."

Dr. A. C. McGowan of Edmonton, association president, reported the Blue Cross hospitalization plan had an operating loss of \$82,180 during its 15-month operation in Alberta.

The Blue Cross plan is conducted in the province by the 88 member hospitals of the association. It was begun July 1, 1948. From that date until Sept. 30, 1949, the total net operating loss was made up of \$5,298 from individual contributions and \$30,873 from group contracts.

Dr. McGowan said the financial situation was the result of bad claims experience resulting from an attempt to meet the needs of the association's sponsor group enrolment. No other Blue Cross plan had attempted this in its first year of operation.

Vessels Tied Up
VANCOUVER, Nov. 3.—(CP)—Four more Canadian-owned deep-sea freighters were tied today here as a result, shipping critics said, of government competition from foreign-flag freighters. Seven vessels are now tied up here.

Dr. McGowan said the financial situation was the result of bad claims experience resulting from an attempt to meet the needs of the association's sponsor group enrolment. No other Blue Cross plan had attempted this in its first year of operation.

Serious Diseases Found Through Eye Inspections

HOUSING BANK URGED TO BUY MORTGAGES

TORONTO, Nov. 3.—(CP)—A proposal that the government set up a "housing discount bank" to discount or buy second mortgages from builders or investors at their face value was presented to the Ontario Property Owners' Association convention yesterday by Harold B. Ister of Vancouver.

Mr. Ister said the plan would aid builders by providing them with cash. "Our private lending institutions can be expected to continue to loan their money on a basis of 60 per cent of appraised value," he said.

"The builder or investor then could accept from the home owner a second mortgage which this public housing discount bank would buy. This mortgage would yield perhaps one per cent higher interest rate than the first mortgage."

Mr. Ister declared that rent control stifled the building of houses for revenue purposes. He said the federal government should "abolish all forms of rental legislation and allow rents to find their own market level."

Unions Seek Central Control of Transport

OTTAWA, Nov. 3.—(CP)—Control of transport under a central authority was advocated yesterday before the Royal Commission on Transportation.

This proposal was made by a group of 20 railway unions, which contended that trucking should be subject to the same kind of control as railroads.

The commission also heard today from the Prime Minister's Commission of Enquiry into the coordination of all forms of transport in that area, apparently the first step in a move for national integration in other provinces.

However, indications were that the government would be fought strongly by some other provinces and by trucking interests.

Developments before the commission today, in addition to the P.T.C. coordination move, included:

1. Demand of the railway unions that a central authority be set up over all forms of transportation.

PACIFIC OUTLET
2. Release of a brief from the Board of Trade and Chambers of Commerce of the Peace River Area calling for a rail outlet from that region to the Pacific.

3. A suggestion from Rand H. Matheson, transportation manager of the Maritime Transportation Commission, that Maritime industries should be given independence by way of freight rates to get into markets.

4. A union suggestion that if the railways need increased freight rates should be boosted.

Admission by the union spokesman that the unions had not given thought to whether the country could stand another freight-rate increase.

WE NEED A SPINACH CANDY

Man's Taste for Sweets Cause Most Toothaches

By PAUL F. ELLIS
United Press Science Editor

NEW YORK, Nov. 3.—(UPI)—Man is paying and will continue to pay for that day in prehistoric times when he began to develop sweet teeth.

That habit, according to a study by scientists at the University of Rochester, has resulted in much of the human being's trouble with decay teeth.

The Rochester scientists have been engaged in trying to find substances that will stop tooth decay, and one of their most recent finds is the fact that chlorophyll—the stuff that makes green vegetables green—has some action in preventing tooth decay in animals, such as the hamster.

But the hamster, if let alone, will have perfect teeth, the scientists said.

To make a human susceptible to tooth decay, the scientists feed him a high-sugar diet and within some weeks he begins to develop bad teeth. The scientists already have used some hundred hamsters in experiments. Those fed, or given chlorophyll, maintain their good teeth. Those who don't get the green stuff get holes in their teeth.

The Rochester scientists believe they are not convinced that chlorophyll is not dangerous—so these days they are running an

other experiment. Hamsters who have been put through the test are being sacrificed and autopsied.

It requires only a minute part of chlorophyll—about one part to 500 parts of water—to make the solution have a greenish appearance. Human beings have tasted the solution and are divided on whether it is pleasant.

Some say yes. Others believe it is soothing.

"Imagine a mother trying to get her youngster to eat one playful of spinach, let alone 25 pounds of it," said.

1,880 bb. Test At Normandville

By Don Flach

Recent test at Imperial's Normandville well has established production at 1,880 barrels daily. Test was the first in the field to establish the flow which contained 11 per cent of basic sediment and water. A relatively small amount of basic pressure was held in the tubing.

Due to the thin section and some positive evidence of fracturing in gravel, Imperial has refrained from making any prolonged openflow test. Danger of such a test is the premature closing of bottom water.

Despite precautions taken, the initial tests and the fact that only 13 ft of pipe has been perforated, the well is now making some salt water. Extent of the salt water content cannot be determined as mud and sediment are also coming into the well bore.

First test taken at the well had a daily potential flow of 600 barrels.

RUN TRYING SECOND

Sun Oil Ltd. is preparing to drill a second widest venture. This time at Loyalist, about 25 miles south-east of Coramaton and 10 miles north of the Royce-Widener Concession. It will be drilled on lot 1-23-76-14 and will test down to the 6,000 foot mark.

Pacific Calhoun failed to get encouragement in its first report on the D-4 formation well, about 30 miles northwest of Edmonton, was treated with 300 gallons of acid and then reworked. The reworking recovered only acid and water. Further tests of the formation are to be made.

CALVAN TO PERFORATE

Redwater, Calvan 6-2 is to be perforated in the D-2 before further attempts to put the well into production. The well is in the River Natural Gas Zone. It is drilling ahead at 4,800 feet.

Calvan 6-2 is on the north end of the Redwater field in the Redwater and preliminary indications show the well will flow under its own pressure. B-7 is drilling ahead at 3,190 feet, and B-10 is at 2,414 feet.

Prices Drop At Chicago

CHICAGO, Nov. 3. — (AP) — Grain, minimized after knocking out some 2400 bushels on the Board today. Trade today. Profit-taking forced the retreat. Many contracts held below the previous close.

Light cash grain receipts, plus prospects for a reduced arrival next year, spurred buying. December and May contracts sold 1949 bushels higher on the Board.

Wheat lagged most of the session here, although all deliveries at Kansas City and Minneapolis were in season peaks. The relative weakness here is blamed by traders on large supplies in local elevators, particularly of mid-western wheat for which demand is poor.

Wheat closed 4-1/2 lower; corn was 3-1/2 higher; oats were 1-1/2 lower; rye was 1-1/4 lower; soybeans were 1-1/4 higher.

Wheat—Dec. 21 1/2-12; March 2 1/2-3; July 2 1/2-3; May 2 1/2-3; July 2 1/2-3; May 2 1/2-3.

Corn—Dec. 11 1/4-14; March 1 1/4-1 1/2; May 1 1/4-1 1/2; July 1 1/4-1 1/2; May 1 1/4-1 1/2.

Oats—Dec. 7 1/4-7 1/2; March 2 1/4-2 1/2; May 2 1/4-2 1/2; July 2 1/4-2 1/2; May 2 1/4-2 1/2.

Rye—Dec. 7 1/4-7 1/2; March 2 1/4-2 1/2; May 2 1/4-2 1/2; July 2 1/4-2 1/2; May 2 1/4-2 1/2.

Soybeans—Nov. 2 1/4-2 1/2; Dec. 2 1/4-2 1/2; March 2 1/4-2 1/2; May 2 1/4-2 1/2; July 2 1/4-2 1/2.

No cash wheat. Corn, 1 yellow, 1 1/2-1 1/2; 2 yellow, 1 1/2-1 1/2; 3 yellow, 1 1/2-1 1/2; 4 yellow, 1 1/2-1 1/2; 5 yellow, 1 1/2-1 1/2.

Gold—Shelby No. 7 at 3,300 feet, rose a pre-arranged potential of 804 bushels at 3,300 feet.

Calvan well at the south end of the Redwater field, running production tubing this afternoon and will production test tomorrow.

Alberta daily and local oil and gas production is estimated at 3,220 feet.

High Crest Petroleum No. 1 immediately south of the Redwater Leasehold Campbell success has started recovery for the Lower Cretaceous at 3,086 feet. Campbell tested the lower part of the formation at 3,705 feet.
